Mark Twain Plaza consist of two identical brick buildings that total 89,118 rentable square feet and are joined by a central courtyard. In 2007, an additional building Mark Twain III was built. The modern buildings have state-of-the-art, computer-controlled heating and air conditioning and also electronic security and fire-safety systems.

The buildings offer a unique executive suite concept, which allows smaller businesses to lease a space that fits their size and the ability to expand as needed. Concierge and administrative support services are also available.

This attractive commercial development is conveniently located next to the Madison County Courthouse in the heart of downtown Edwardsville. It sparked continued re-development and growth when completed in 1990 and received the Edwardsville-Glen Carbon Chamber of Commerce Mayor's Key Business Award.
